

District Reading Assessment Plan

K-4 Universal Screening Tool administered in the fall and spring and used for reporting on the WDE-626 (highlight one): DIBELS **MAP**

If MAP is the district's selection, MAP for the Primary Grades is to be used for grades K and 1 with MAP Survey with Goals being used for grades 2-4.

Although additional outcome measures may be used in your district, since only DIBELS or MAP will be used for WDE reporting purposes, your response above is all that is needed as an outcome measure for this plan.
