

INVESTMENTS

The Board of Trustees supports and authorizes a safe and sound investment program. Such a program is viewed as a critical ingredient of sound fiscal management, the purpose of which is to secure a maximum yield of interest revenues to supplement other district revenues for the support of the educational program of the district.

Investments shall be limited to those authorized by state law.

Before any person effects any investment transaction on behalf of the school district or offer any investment advice to the school district, the person shall sign a statement indicating he/she has read this policy and agrees to abide by applicable state laws with respect to advice he/she gives and the transactions he/she undertakes on behalf of the school district. For purposes of this policy, "investment transaction" or "investment advice" does not include deposits in financial institutions as authorized by law.

Staff members responsible for investment transactions are encouraged to take advantage of education programs conducted by the state auditor or treasurer relating to investment of public funds.

The Board of Trustees believes:

- That all excess funds shall be held in interest-bearing accounts or investments to earn the maximum return possible on the funds available for investment while complying with state statutes and district policy.
- That safety of funds should be first consideration. The district should not enter into investment transactions that will expose itself to an undue credit risk on an issuer or a broker/dealer.

Adoption Date: December 13, 2004
