CREDIT BY EXTENSION

The Board of Trustees realizes that from time to time students may need an alternate source for earned units for graduation. It is the policy of the district to honor credits earned through correspondence courses or extension. The credit must be earned from an accredited institution. The school district may reimburse any high school student for the registration and tuition cost of correspondence or extension course under special conditions; as approved by the counselor and principal.

Adoption Date: June 11, 2007
