

SCHOOL ATTENDANCE AREA

The Board of Trustees believes that children learn best when they are in an environment which is comfortable for them. We believe their designated attendance area affords that comfort level for them. All students are urged to attend that school in the area in which they reside. Those children who desire to attend schools within the district outside their residential areas may do so, however, school transportation will not be provided beyond the established bus routes, unless required by federal or state regulations. Any student living in Laramie County School District #2 is limited to one school change at the elementary level and one school change at the secondary level without a corresponding parent move, or change of legal guardianship. Additional changes must be approved by the Superintendent.

Attendance areas will coincide with bus routes established by the administrative team and the Transportation Coordinator. The routes will not be changed arbitrarily from one year to the next.

Bus routes will be approved by the board in the fall of each year.
