

STUDENT FUND-RAISING ACTIVITIES

The Board prefers that the school district support student activities, but it may be necessary for students to raise funds to support some of them. The building principal is responsible for fund-raising activities and, in all cases, must approve any fund-raising in advance.

In general, school or district initiated fund-raising will be subject to the following guidelines:

1. All proceeds of student fund-raising campaigns shall be maintained in an activity account.
2. All information, advertising, tickets, and other materials shall carry the name of the sponsoring organization. The use of the title of any district official or student organization shall not be used on any materials, notices, or advertising without the official approval of the school principal.
3. Individuals representing the school shall not seek direct cash donations from individuals or businesses without a written authorization from the building principal. The building principal will develop procedures which will include a notice of receipt as to allow parents or individuals to offer a cash amount to replace the fund raising activity. Parents or students may opt out of any fund raising activity without being penalized by non-participation or reward.
4. Any summer fund-raising project must be approved by the Superintendent of Schools.
5. Each organization or class within a given school shall be limited to (2) fund raising activities. When approved by the School Principal, an organization, student group, etc. may be authorized to hold additional fund raising activities.
